

Workplace Pensions (Auto Enrolment)

Many companies offer a pension scheme to their employees. There are numerous different types available and usually the company will make a payment on behalf of employees.

We are able to help employers to select, set up and run workplace pensions and ensure compliance with auto enrollment legislation.

We will be able to explain the features workplace pensions to employees and provide one to one advice if required.

Small businesses

Employers will be able to choose the pension scheme(s) they want to use provided the scheme(s) meet certain quality criteria (including any current scheme). These may be based on contributions or benefits people receive. There is a 'certification' process whereby Employers can register an existing scheme 'as good as' or 'better than NEST' and this can enable 'one or two man limited companies certify personal arrangements for use.'
